

ARMED FORCES MEDICAL COLLEGE

DEPARTMENT OF OTOLARYNGOLOGY

IMPORTANT NOTICE

LIVE WEBCAST OF MIDDLE EAR SURGERY AND TEMPORAL BONE DISSECTION: 13 SEP 2013

1. It gives me great pleasure to inform you that Annual Temporal Bone Dissection Workshop will be held at AFMC from 13 – 15 Sep 2013. Department of ENT at AFMC has been conducting this popular event for the last six years in a row and it has helped post-graduate students and young specialists in improving their surgical skills.
2. Efforts have been made to introduce an innovative measure every year so that the course remains contemporary and relevant. This year a live surgical session by eminent ENT surgeons has been added over and above the routine cadaveric dissection. Further, as a e-learning initiative, we will webcast the event live on 13 Sep 2013 from 0800h onwards.
3. The access for the event will be open to all specialists and postgraduate residents. They can log the homepage of the AFMC Portal (www.afmc.nic.in) where the link to the webpage will be posted or directly at mfcme.watchwitz.com/afmc. We shall provide live streaming video of ear surgery by **Dr AG Pusalkar and Dr KP Morwani**, ENT surgeons of international repute.
4. I request you to kindly disseminate this info to all parties who may benefit from it .

Thanks

Regards

Brig AK Das
